### Unity of Invention

1. This application was filed under 35 U.S.C. § 371 and is subject to unity of invention practice pursuant to 35 U.S.C. § 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single inventive concept under PCT Rule 13.1. In accordance with 37 C.F.R. § 1.499, applicant(s) is/are required, in response to this action, to elect a single invention to which the claims must be restricted.

a. Group I, claim(s) 12-15, drawn to an **HIV-1 Rev peptide**.

b. Group II, claim(s) 1-11, drawn to a **method of generating HIV-specific CTL responses** through the administration of a "T-helper molecule".

The inventions listed as Groups I and II do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the claimed invention fails to make a contribution over the prior art (i.e., see the ISA Chapter I search report) and clearly lacks a special technical feature. Moreover, the claimed HIV-1 Rev peptides of Group I, which are already disclosed in the prior art, can be employed in a number of materially different processes (i.e., generation of immunological reagents, antiviral screening assays, affinity purification procedures, antibody capture assays, etc.). Thus, a unifying special technical feature is clearly absent from the claimed invention.

2. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed. Applicant is reminded that upon the cancellation of claims to a non-elected invention,

the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
